## PROFESSIONAL SUMMARY

Multidisciplinary professional combining deep Islamic scholarship with hands-on expertise in AI engineering and automation. Currently leading a 33-language Quranic content translation pipeline at Dawat-e-Islami and building AI-driven solutions at Cybrum Solutions. Brings 8+ years of experience in Shariah advisory, Islamic academia, and institutional management, alongside proficiency in agentic AI systems, multi-agent workflows, full-stack development, and LLM integration. Committed to bridging authentic Islamic knowledge with cutting-edge technology for meaningful, scalable impact.

## CURRENT POSITIONS

### Team Lead - Translation Department [ CURRENT ]

**Dawat-e-Islami** • Jan 2026 - Present

- Leading a multilingual Quranic content translation operation across 33 target languages using a structured relay chain (Arabic to Urdu to English to 33 languages).
- Managing translator teams, setting quality benchmarks, and enforcing Islamic scholarly standards across all language outputs.
- Also leading the English Translation Department, overseeing the complete end-to-end workflow from translation to publishing for Weekly Speeches, Friday Speeches, Weekly Booklets, and multiple books on Aqaid, Quran, and Tafseer.
- Overseeing workflow automation, quality assurance processes, and delivery timelines for large-scale Islamic content production.

### Founder & AI Solutions Expert [ CURRENT ]

**Cybrum Solutions** • Nov 2025 - Present

- Building and productizing AI automation solutions for Islamic publishers, educational institutions, and Pakistani SMEs.
- Developing WhatsApp chatbots, CRM workflow automation, and multi-agent AI systems as core service offerings.

## PROFESSIONAL EXPERIENCE

### Asst. Mufattish / Asst. Shariah Advisor

**Dar-ul-Madinah International Islamic School System** • Aug 2017 - Jan 2026 (8.5 Years)

- Served in the Shariah and Taftesh (Inspection) Department, overseeing compliance with Islamic law and institutional standards.
- Conducted Shariah audits, prepared legal opinions, and advised management on jurisprudential matters.

### Secretariat Incharge

## **Dar-ul-Madinah International Islamic School System** • Jan 2022 - Sep 2023

- Managed secretariat operations, official correspondence, and administrative coordination for the school system.
- Streamlined documentation workflows and maintained institutional records across departments.

## **Teacher of Scholars Course**

### **Jamia Noor Ul Quran, Karachi** • Sep 2022 - Apr 2024

- Delivered advanced Dars-e-Nizami curriculum to students enrolled in the Scholars Course.
- Focused on Arabic language, Islamic jurisprudence, and classical Islamic texts.

## **Teacher of Scholars Course**

### **Al Miftah Scholars Academy, Karachi** • Nov 2014 - Aug 2022 (7+ Years)

- Taught Dars-e-Nizami subjects over 7+ years with consistent academic outcomes.
- Mentored students in Arabic grammar, Fiqh, Hadith, and Tafseer disciplines.

## **Online Quran and Dars-e-Nizami Teacher**

### **Independent / Remote** • Jan 2017 - Dec 2020

- Delivered one-on-one and group online sessions for Quran recitation and Dars-e-Nizami subjects.
- Taught students across multiple countries, adapting instruction to individual learning levels.

## **Class Teacher - Nazrah Quran**

### **Islamic Institution, Karachi** • Jun 2015 - Jul 2017

- Conducted Nazrah Quran classes and monitored student progress in recitation and tajweed.

## **TECHNICAL PROJECTS**

---

All projects are maintained on GitHub: [github.com/irazaahmed](https://github.com/irazaahmed)

### **Quran Translation Management System**

**Tech:** Next.js, Supabase, Vercel

Full-stack web application for managing the end-to-end Quranic content translation workflow across 33 languages. Built with a Next.js frontend, Supabase as the backend database, and deployed on Vercel for reliable, scalable access by distributed translation teams.

### **Physical AI and Humanoid Robotics**

**Tech:** Python, AI/ML Frameworks, Robotics Integration

Explored physical AI concepts and humanoid robotics systems, implementing intelligent control and decision-making capabilities in robotic platforms.

### **Multiuser ToDo Application**

**Tech:** Next.js, TypeScript, FastAPI, Python

Full-stack multiuser task management application with real-time collaboration, user authentication, and persistent storage.

### **Saylani Impact Portal**

**Tech:** Next.js, TypeScript, Tailwind CSS

Web portal to track and showcase social impact metrics for Saylani Welfare, featuring data visualization and reporting dashboards.

### **Nike E-Commerce Platform**

**Tech:** Next.js, TypeScript, Sanity CMS, Tailwind CSS

Full e-commerce storefront with product management via Sanity CMS, dynamic routing, cart functionality, and responsive design.

### **SMIT Virtual Assistant**

**Tech:** Dialogflow, FlowiseAI, Node.js

Conversational AI assistant for SMIT handling student queries and support automation using intent-based and LLM-powered flows.

## InfoNest Blog Platform

Tech: Next.js, TypeScript, Tailwind CSS

Content-rich blog platform with category filtering, dynamic post rendering, SEO optimization, and clean editorial layout.
